

Dear Friends

I congratulate both of you from Easter celebration of year 2013 and I hope you celebrated it well.

On my side Easter found me at school because we have not yet got holiday from school but some students they got permission from the principal and allowed them to go to their homes to celebrate Easter with their family members. and for me I decided to remain at school because my mother was not at home because she went to see her mother in Tukuluvillage.

At school we celebrated Easter well because they prepared for us rice with meat and we enjoyed our Easter lunch and after our lunch we went to our entertainment hall and we watched films. and we stopped watching films at mid night and we had our supper then we slept.

My studies at school are going well and here at school we had open day and our parents and other visitors were invited and our principal made all the visitors to tour our school and we displayed all things that we are learning happily because of the skills we have acquired at school.

I thank you both for helping me in my studies and may God keep both of
